SUMMARY

I am an environmental scientist with broad interests across environmental science and engineering, including environmental systems, wastewater treatment, ecosystems, and environmental change. My background combines scientific research, field observations, and geospatial technologies to better understand environmental processes and support practical solutions to environmental challenges.

WORK EXPERIENCE

Lecturer, Faculty of Environment, University of Science, VNUHCM	Oct 2024 - Present
• Introduction to Environmental Sciences • Cartography and Geographic Information System (GIS) • Introduction to Remote Sensing • Applied Remote Sensing & GIS • Environmental Geology • Ground Water	
Researcher, Faculty of Environment, University of Science, VNUHCM	Mar 2018 - Sep 2024
• Principal Investigation of the projects funding by University of Science, VNUHCM ◦ Estimation of nutrient concentrations in the Tri An reservoir, Dong Nai province using LANDSAT 8 OLI ◦ Assessing the distribution of PM2.5 dust in Ho Chi Minh City using remote sensing technology	
Leader, Japan-Asia Youth Exchange program in Science	2025
Secretary, National Applied GIS Conference	2022
Standing Committee Member, the University Youth Union	2019
Participant, Japan-Asia Youth Exchange program in Science	2018
Trainee, Department of Natural Resources and Environment of Binh Duong province	2016
Secretary, the Youth Union of the Faculty of Environment	

EDUCATION

Master of Environmental Science University of Science, VNUHCM	2022
Bachelor of Environmental Science University of Science, VNUHCM Valedictorian GPA: 8.57	2017

ADDITIONAL INFORMATION

- **Technique Skill:** ArcGIS
- **Other skills:** Vocalist (Acoustic band), Master of Ceramones
- **Certifications:** English level 4/6 (Framework for VN), Basic office computer skills
- **Awards:** Awarded the title of Grassroots Emulation Fighter 2024, 2025; Certificate of Merit awarded by the Rector 2023; Advanced Laborer 2019-2023
